

NOTE: All of our printing is full color on both sides, unless otherwise noted.

All our print pricing includes free graphic design & layout services!

Additional discounts MAY be available to clients who supply their own **print-ready** design.

Most clients do not have a complete understanding of setting their designs up to be truly print-ready and it is always preferable to sell the customer on letting us design it for them!

All business cards & postcards come standard on 16pt card stock.

Door hangers and presentation folders come standard on 14pt stock.

UV coating comes standard on all of the above mentioned products. Matte finish is available as an alternate option for many products.

Yes, we do offer quantities as low as 100, but you should always try to sell a minimum quantity of 5000 – the price break for the customer and our profit margin is much better on larger quantities.

Flyers, brochures & posters are on 100lb book (a lighter card stock), and are aqueous coated (glossy but not UV!)

The listed pricing for 8.5x11” flyers is for a one-sided print only.

For double-sided 8.5x11” flyers, please refer to our tri-fold brochure pricing.
